User stories:

On our meeting with our client on Monday February 2, we showed our clients what we did during the week, and here is what they want from us:

1.  s a customer, I want to be able to enter my profile info, in order to be able to edit my profile info.
2.  As a customer, I want the suggestion page, in order to be able to get suggestions.
3.  As a customer, I want to have a logo for my app, in order to be able to distinguish my app from other apps.
4.  As a customer, I want to be able to interact with the app in the next couple of week, in order to see if the app is what exactly I want it to be.

Schedule:

*   We will have our updated user interface and the actual layout of the activities. Each activity has their own functionality, general overview of what the user sees.
*   Our main meet up is on Saturdays but we sometime meet up on Wednesdays and Fridays. Discussing the app and collaborating on the app.
*   We are creating an account for the user so they will be able to interact with the app.
